

Town of Peletier Sign Permit

Application Checklist

Sign application must include (per section 2102 of the zoning ordinance):

- A drawing approximately to scale showing the design of the sign, including dimensions, method of attachment of support, source of illumination and showing the relationship to any building or structure to which it is or is proposed to be installed;
- A plot plan approximately to scale indicating the location of the sign relative to property lines, easements, buildings, streets and other on-premise signs;
- Two sets of plans to be submitted to the Building Inspector, when required;

PLEASE ALSO NOTE

- No zoning permit for a sign is required for a construction sign, real estate sign or financial institution sign related to the financing of the project under construction, so long as it is not over 15 square feet and there is not more than 4 feet from the bottom of the sign to the ground thereunder.

Refer to article 2100 of the zoning ordinance for design standards and regulations of signs.
